

Love Never Loved Me

[Geri Halliwell](#)

Tout l'heure mon amour
I live for love and all it brings
The heart it heals, the song it sings
The sweetest kiss, the warm embrace
Will melt the ice before it breaks
No matter what I do, no matter what I say
What can I do when nothing stays the same?
It's written in the stars, the story ends the same
Everything changes
Love never loved me
Love left me out in the cold
Love never loved me
Love gave up on me, after all
I've taken chances, set them free
I've taken back virginity
I've been adored, I've been the one
I've broken hearts, I've had my fun
No matter what I do, no matter what I say
What can I do when nothing stays the same?
It's written in the stars, the story ends the same
Everything changes
Love never loved me
Love left me out in the cold
Love never loved me
Love gave up on me, after all
You can't break a heart that's already broken
You can't steal a heart that's already stolen
And what doesn't kill me, is making me strong
I'm ready for love
Love never loved me
You can't break a heart that's already broken
You can't steal a heart that's already stolen
My greatest desire is to love and be loved
'Cos I'm a believer, I'm not giving up
And what doesn't kill me, is making me strong
I'm waiting, I'm willing, I'm ready for love
Love never loved me
Love left me out in the cold
Love never loved me

Love gave up on me, after all
Love never loved me
(Love never loved me)
Love left me out in the cold
Love never loved me
(Love never loved me)
Love gave up on me, after all
Love never loved me
(Love never loved me, loved me)
