

High Rate Extinction

Crowbar

Reign over you another day
Take all I can
Slave to me there's no other way
Break all I can
Come and taste me
Stay and praise me
Take all I can while I burn you down
Weak man
Weak mind You know you never will be free
Come for you time after time and again Crawl with me Give me what I need from you
Don't question why
On your knees in front of me
Weak man
Weak mind
