

Breathe

Michael Alvarado

Take my breath away
It's a common thing you do to me every day
I've never been knocked off my feet
But you, you give me reason to believe

[Chorus]
If I could tell you this feeling I fell into, I would
But I can't seem to breathe
Oh, breathe
When you're around, baby, I can't breathe

Oh, there it goes again
I'm breathless the moment you walk in
And now we're standing face to face
And once again, without the words to say

[Chorus]
Baby, when you smile
I get lost in the moment
I think you should know that

Baby, when you smile
All the words, they escape me
And you, well, you take me
And my breath away

Breathe
Oh, breathe
When you're around, baby, I can't breathe
