Take Your Chance

Fun Factory

Take your chance
Bring your life up to the top
And you never ever stop
And you try to do it right
You better take your chance
And luck will always be around
Keep your feet down on the ground
And you will never be aloneCome on come on take your chance
Your life is very hard
No time for romance
You know that life is hard
But you know that you'll make it
There is only one chance in life
And you better take it
You got some hard time
You got some bad time
You got some ruff time and you got some sad times
Listen to the word from the man smooth t.
We all get bizzy with da fun factory
Once you're the winner
But then you lose the game
Don't try to hide your sadness
'Cause we all feel the same
Praying to God and I hope he's going to save me
'Cause when he's around
I feel a special kind of safety
Take it take it just don't fake it
Put me in the spot and i won't fake it
Take your chance
Common take your chanceRingidingiding ringidingidingdong
Me feel so sad ya'll
Me feel so sad ya'll
Can't control the beat of my heart ya'll
Me felt so sad when i left my family
Broken heart sad eyes low mentality
You better watch me
You better watch me
When I come to you
Nobody can stop me

Listen to the words from the man Smooth T
We all get busy with da Fun FactoryTake a look over troubled waters
Think about today what's up for tomorrow
What you really want is a chance to be free
How you're livin' what's about 'g'
Take a look in a looking glass
In a life class
Just watch me blass
That microphone is right straight to your heart
