Motherlover

Pitty Sing

My intoxicated lover gives intoxicated love my baby and she wants my baby
In the standing of believing will the darkies tint my skin
With a lifeline of deceasing and the drugs still kicking in
And won't you stay here with me and we'll touch each other's hearts
With light and won't you help me be free and we'll touch each other's lives
And now you're making me oooh tonight
I'll make you my lover tonight
And when you're going all oooh tonight
I'll make you my mother tonight

Take my fortune I've been sailing on a patient sea of gold
In the sunset am I legal
Has my history been told
And won't you stay here with me and we'll touch each other's hearts
With light and won't you help me be free and we'll touch each other's lives
And now you're making me oooh tonight
I'll make you my lover tonight
And when you're going all oooh tonight
I'll make you my mother tonight
