Last Night

The Vamps

Oh oh oh oh
Oh oh oh oh oh
Oh oh oh oh oh oh

I hold my hands up high
And throw my glass into the sky
But when the morning comes
We'll never see the sun

And if the walls close in
Then let's just start it all again.
That's when the evening comes
Oh yeah the evening comes.

Whoa, oh oh oh oh oh
No we're not going home tonight
Wake up the stars are shining
We'll do it all, we'll do it all
We'll do it again

Wake up in the morning
With the sunlight in my eyes
No, my head don't feel so bright
What the hell happened last night?
Yeah last night think we were dancing
Singing all our favorite songs
Think I might have kissed someone
And if tomorrow never comes
We had last night

Let's shut this party down
And pull the building to the ground
Yeah girl let's live it up
One night is all we got

Let's dance until we die
Nobody's going home tonight
This kiss could be our last
Come on and raise your glass

Whoa, oh oh oh oh oh
No we're not going home tonight
Wake up the stars are shining
We'll do it all, we'll do it all
We'll do it again

Wake up in the morning
With the sunlight in my eyes
No, my head don't feel so bright
What the hell happened last night?
Yeah last night think we were dancing
Singing all our favorite songs
Think I might have kissed someone
And if tomorrow never comes
We had last night

We do it all again
We do it all again
So bring your friends and tell a friend to bring another friend (last night)
We do it all again
We do it all again
By the end of tonight
We can all be friends
We do it all again
We do it all again
So bring your friends and tell a friend to bring another friend (last night)
We do it all again
We do it all again
By the end of tonight

We do it all again
We do it all again
So bring your friends and tell a friend to bring another friend (last night)
We do it all again
We do it all again
By the end of tonight
We can all be friends
We do it all again
We do it all again
So bring your friends and tell a friend to bring another friend (last night)
We do it all again
We do it all again
By the end of tonight

Wake up in the morning

With the sunlight in my eyes
No, my head don't feel so bright
What the hell happened last night?
Yeah last night think we were dancing
Singing all our favorite songs
Think I might have kissed someone.
And if tomorrow never comes
We had last night

Wake up in the morning
With the sunlight in my eyes
No, my head don't feel so bright
What the hell happened last night?
Yeah last night think we were dancing
Singing all our favorite songs
Think I might have kissed someone
And if tomorrow never comes
We had last night
