## 3rd Man In

## **Dropkick Murphys**

My friends, my town, camaraderie we'll never finish last
We stood as one where are they now we grew up fast
Too young to know or really give a shit
The past has left us worse for wearBe strong and stand up like a man
Your concept of friendship isn't right
Third man in is how you show your care
Nothing else matters but the fightSome will survive I hope I'm one of them
Things aren't what the used to be it makes me sick
Our bond has broke and we aren't what we were
It's time to face life on my own
