Don't Mess With Latexas

Menomena

I know that I should just confess
But I don't admit too much these days
I was a monster once but now Iâ€™m calm
Now I'm tame
Sooner than later ill mean more
Ill try to behave myself till then
I was a monster once but
Now I'm calm
'Cuz now I'm fed

You said kiss me with your bottleneck
And vapid pros through drunken breath
Though your half my age and half undressed
Itâ€™s morally ambiguous
Still, your speech is young
Your words are wrong
You talk so much
Your voice is wrong
I'm sure you're sick of sucking up
I'm such a sucker for a stick of thought

I know that I should just confess
But I don't admit too much these days
I was a monster once but now I'm calm
And now I'm tame
But sooner or later Iâ€™ll need more
I try to behave myself till then
I was a monster once but
Now I'm calm
â€˜Cuz I was fed

This state is so picturesque
Your men are strong
Your women blessed
Though, I was taught to never mess
With the poison wells of latexas

Your state is so picturesque
(I know that I should just confess)
Your men are strong

(But I don't admit too much these days)
Your women blessed
Though (I was a monster once but) I was taught to never mess
(Now I'm calm, 'cuz now I'm fed)
With the poison wells of latexas

Your state is so picturesque
(but sooner or later Iâ€™ll need more)
Your men are strong
(I try to behave)
Your women blessed
(Myself till then)
Though (I was a monster once but) I was taught to never mess
(Now Iâ€™m calm, 'cuz I just fed)
With the poison wells of latexas

I know that I should just confess
But I don't admit too much these days
I was a monster once but now I'm calm
And now I'm tame
But sooner or later Iâ€™ll need more
I try to behave myself till then
I was a monster once but
Now I'm calm
'Cuz I just fed
