Bullets From Hell

Destruction

Hate is all I feel
Disgust is disease no one can heal
Frustration, no big deal
This suckin' life can't be fuckin' realSalvation of our sanity
Is what they preach to the silly humanity?
But greed and ignorance
Knocks down the level of my toleranceI don't give a fuck if they endorse political crime
The crap they preach is just like a bad rhyme
Don't trust the one with the smile on the face
Or you'll disappear without a traceSuffer from this curse, a verdict of my hate
You won't forget this verse, you can't change our fate
You won't forget this words, no one can tell
Deep from my heart I shoot bullets from hellBullets
Bullets from hell
Bullets
Bullets from hell
Bullets from hellAn ambush, I'm born to scream it out
I ain't no preacher, there's no fuckin' doubt
Listen to these desperate words
Understand, I hit where it hurtsI don't give a fuck if they endorse political crime
The crap they preach is just like a bad rhyme
Don't trust the one with the smile on the face
Or you'll disappear without a traceSuffer from this curse, a verdict of my hate
You won't forget this verse, you can't change our fate
You won't forget this words, no one can tell
Deep from my heart I shoot bullets from hellBullets
Bullets from hell
Bullets
Bullets from hell
Bullets from hellSee the nightmares I bring
Feel the unholy sting
Smell the fragrance of decay
Hear my screams they will staySee the nightmares I bring
Feel the unholy sting
Smell the fragrance of decay
Hear my screams they will stayBullets
Bullets from hell
Bullets
Bullets from hellBullets

Bullets from hell
Bullets
Bullets from hell
