If I Could Make You Do Things

Two Tongues

Put down that cigarette
My heart's not in it yet
Put down that cigarettePlease don't turn away
I don't have much to say
Say it anywayOoh, forever burning
Within the heart of the one is searching
Ooh, forever waiting
Why should I come if it's all just fadingPut down that needle now
I wanna live life underground
I'm here to pull you outPlease don't turn away
I don't have much to say
Say it anywayOoh, forever burning
Within the heart of the one is searching
Ooh, forever waiting
Why should I come if it's all just fadingIf I could make you, make you go away
If I could make you, make you do it
You gotta go away
If I could make you, make you
You gotta go away
If I could make you, do itOoh, forever burning
Within the heart of the one is searching
Ooh, forever waiting
Why should I come if it's all just fadingIf I could make you, make you go away
If I could make you, make you do it
You gotta go away
If I could make you, make you
You gotta go away
If I could make you, do itIf I could make you, make you go away
If I could make you, make you do it
You gotta go away
If I could make you, make you
You gotta go away
If I could make you
