Lover's Leap

Creeper Lagoon

Our love is on the fly
Is what you make of it
And someone's gonna die
Well, you're saving it
It's up to you
What else can you do?There will come a time
To put on a brave face
When everything is on the line
And we're in the same place
It's up to youTo pull you through or pull you down
Looking away
Drowning in the sea
Falling from a large cliff
Looking at the world
Watching it all go down, down down, downThere will come a time
To put on a brave face
When everything is on the line
And we're in the same place
It's up to youOur love is on the fly
Is what you make of it
And someone's gonna die
Well, you're saving it
It's up to you
(All my love)
What else can you do?
(All or none)It's up to you
(All my love)
What else can you do?
(All or none)
It's up to you
