12345

Sibot

Are you ready for attack?
Yeah, Yeah, Yeah
Stargate ah yeah
Yeah [etc]
Five have been around and livin' it up
We're changin' it around just keeping you right
When we get excited no we never stop
Everybody knows we can't get enough
People say we're dark but we're the light
'Cause we're the only ones that are keeping you tight
Everybody's gonna feel high tonight
Five's gonna show you how to rock it right
Do you want it?
Do you need it?
Can you feel it?
Tonight
[CHORUS]'Cause you gotta get up
You gotta stay on top
Throw your hands to the sky
Wave them from side to side
It's gonna take all night
When you rock all right
Because we're wanted
Dead or alive
12345

(I said 12345)
Ready, steady for attack
When you feel me comin'
Keep comin' back
The more you want, the more we got
All you gotta do is just give it a shot
Drop it into fifth in the fast lane
Once you've had a taste you'll be back again
Everybody's gonna feel high tonight
Five are gonna show you how to rock it right
Do you want it?
Do you need it?
Can you feel it?

Tonight
[CHORUS](Said 12345) [x2]
Dead or Alive
We're comin' tonight
To make it all right
(Are you ready for attack)
Yeah [etc]
[CHORUS x2]
