I Saw a Man

X-RAY SUN

Well, I found your disease
Yeah, I found your disease
Yeah, I found your disease
In my heart
I saw you creep like a fox
I saw you creep like a fox
I saw you creep and wince and cry and scream

And I saw a man
I saw a man
I saw a man
I saw a broken man

I feel your tongue on my cheek
I feel your tongue on my cheek
I feel you lick the salt off my back
Letâ€™s see you prowl with my legs
Letâ€™s see you prowl with my legs
Letâ€™s see you prowl and smile and cry and scream

I saw a man
I saw a man
I saw a man
I saw a broken man
I saw a man
I saw a man
I saw a man
I saw a broken man

I saw a man
I saw a man
I saw a man
I saw a man
