

# Neon Light

[Cajsa Siik](#)

Ever since you left me I've been ridin' 'round  
Crankin' up a little country gold heartbreak  
Cried and dried these tears I don't know how  
Much more missin' you I can take  
I pray pray prayed, for a sign sign sign  
Now there it is in the window  
It's about time, damn time There's a neon light at the end of the tunnel  
It ain't all that bright, but even though it's subtle  
It's got me feeling alright, go on and make it a double  
There's a neon light at the end of the tunnel, tunnel, tunnel I take a shot of 'I don't care what you doing now'  
Chase that one with a cold 'Screw you'  
When that's done, I just might wash it down  
With a big pitcher of 'Someone new'  
That blond blonde blonde  
At the bar bar bar  
See if she wants to try and unbreak my heart heart heart There's a neon light at the end of the tunnel  
It ain't all that bright, but even though it's subtle  
It's got me feeling alright, go on and make it a double  
There's a neon light at the end of the tunnel, tunnel, tunnel When we were together  
I thought life was set forever  
Even though I knew better that the pain would never end  
They say the night's darkest just before the dawn gets kissed  
By the daybreak got down on my knees and I  
Prayed, prayed, prayed, for a sign, sign, sign  
Now there it is in the window  
It's about time, damn time There's a neon light at the end of the tunnel  
It ain't all that bright, but even though it's subtle  
It's got me feeling alright, go on and make it a double  
There's a neon light at the end of the tunnel, tunnel, tunnel
