

# Bobby

## Wanda Sykes

You camped out in my mind  
and told me evil things  
like a demon I cant find  
but I named you.  
I named you.standing over my  
bed you opened up  
and I wont wake up this time  
and I blame you.  
I blame you.I will not hear you out  
you tried to drown me once  
at the bottom of the lake  
I jumped off  
this rope's goneBobby sung it all  
Brother you know me  
But it's come to stop your gun  
Your spirit  
Won't be there.Remember  
When we were kids on road trips  
And your family was pissed  
And the whole town, we all scared them  
And I lay there  
Put a spring into my head
