Stranger Within (Work In Progress Mix)

Ultravox

Light comes through a crack in the door
I tape up the windows once more
Tight like a cold hand of steel
Don't fear the stranger within
Hands that petrify in the air
Eyes catching things never there
Sweet tension caught on my breath
Don't fear the stranger within
Watch every shape that escapes
Scared to make the final mistake
Speak to hear the sound of your voice
Don't fear the stranger within
Sit in the corner with your back to the wall
Pray to your God with your head in your hands
Your mask of fear is shrinking fast
It's closing in more amour
You stand on borrowed time, your sweating palms and chilling brow
Your wide-eyed panic makes you laugh, you cry and laugh
Freeze until the noise decays, a shuffle from behind a door
Your throat is tight, it makes you choke and smoke and choke
Eyes will grow accustomed to the dark, a stifled scream that won't come out
There's nothing more to fear from the stranger within
Don't fear the stranger within
I feel the stranger within
I see the stranger within
Don't know the stranger within
I am the stranger within
I am the stranger within
