

Cold Desert

Kings of Leon

I'm on the corner waiting for a light to come on
That's when I know that you're alone
It's cold in the desert, water never sees the ground
Special unspoken without sound Told me you love me, that I'd never die alone
Hand over your heart, let's go home
Everyone noticed, everyone has seen the signs
I've always been known to cross lines I never ever cried when I was feeling down
I've always been scared of the sound
Jesus don't love me, no one ever carried my load
I'm too young to feel this old Here's to you, here's to me
On to us, nobody knows
Nobody sees, nobody but me
