Forever My Infinity

Sully Erna

Not even through all of these days gone by,
did I ever think you'd feel this way
Don't ever think that I could say goodbye,
cause our lives will never be the sameWithout you next to me,
I only half of what I would be
Take that away from,
and I am left with nothingHold on one more night
Tell me it will be alright
Wait for me one more day
Forever my infinityI remember kissing away those tears from your eyes,
and now my body is left with no more life
And can you even hear me when I call out your name,
why do you have to be so far awayHold on one more night
Tell me it will be alright
Wait for me one more day
Forever my infinityNever felt so alone,
And I can't seem to let you go
One more than I had, had you by my side,
Cause I can't say goodbyeHold on one more night
Tell me it will be alright
Wait for me one more day
Forever my infinityHold on one more night
Tell me it will be alright
Wait for me one more day
Forever my infinity
Forever my infitity
