

Young Man

Living Colour

I'm on feet
Step aside man
Get out my way
I got a mind of my own
Beat all my fears as a young man
Now that I'm grown
I don't fear the unknown When do I know that I haven't arrived?
(I never felt so far away)
Where do you go when you're lost and
You're lonely?
(I never felt so far away)
I'm on feet
Step aside man
Get out my way
I got a mind of my own
Beat all my fears as a young man
Now that I'm grown
I don't fear the unknown How do you know when take it too far?
(I never felt so far away)
Who do you tell
If your secret's too heavy?
(I never felt so far away) Step to the right
Two times
Move left
Spin!
We are marching in darkness
Dancing in darkness
Kiss the darkness We are marching in darkness
Dancing in darkness
Kiss the darkness We are marching in darkness
Dancing in darkness
Kiss the darkness I'm on feet
Step aside man
Get out my way
I got a mind of my own
Beat all my fears as a young man
Now that I'm grown
I don't fear the unknown What will happen when it all ends?
(I never felt so far away)

Why do I never break when I bend?

(I never felt so far away)

(I never felt so far away)

(I never felt so far away)

(I never felt so far away)

(I never felt so far away) Step to the right

Move ahead

Clap one time

Parre thrust Parre thrust
