

In My Home

Young the Giant

Hey hey hey! Yeah we sleep in cars
Oh so far from home
Watch the sun go down
On the open road
I've been searching for this
Part of my life Then the sun will rise
We'll be driving slow
Watch the kids fly by
On their telephones
I've been racing all my life
And now I'm free yeah Well, I know I was born for this
Every night I dreamt of it
In my home
(Hey hey hey!) In my home Fast the moon approaches
And with hungry eyes
We'll be lighting torches
We'll be mesmerized
I've been burning for this
Cover of night When the stars come out
You are stereo
Where we going dear
I know Well, I know I was born for this
Every night I dreamt of it
In my home
In my home And we are not lost
We're just searching
We are always, always searching for, home We'll be going dear
In bright lights
I don't know, I fear
I'm paralyzed
I'm paralyzed In my home
In my home
And we are not lost
We're just searching
We are always, always searching for, home
