Stand United

COPIA

It's a fear that grows and kills the life
We're longing for all that's right
Misread the score
Get caught in the crossfire
We're resortiong to compromise

Down below where the air is cold
There's a light that will keep us going
All allone, we will not let go

We won't fall out of line
No we won't fall

We'll stand united in the rise of liberty
We'll stand united in the fall of tyranny
We'll stand united 'til the end

With broken ties worlds collide
The silence is all but gone
We'll clear the air
To see the new
And savour the blinding truth

Down below where the air is cold
All alone, we will not let go

We'll stand
We'll stand united
We'll stand united 'til the end
