Who Needs Mistletoe

Julie Roberts

baby you can be my santa claus
and i'll come sit on your lap
whisper what i really want
what do you think about thatcause i want to be naughty
hey now don't that sound nice
this the season for giving
are you in a giving mood tonight
don't want egg nut
don't want snow
lights on a house or tree
who needs mistletoe
i rather be with you
who needs mistletoe
i rather be with you
so turn out the lights
come play with me
you know what i am thinking
baby is the perfect christmas evedon't want egg nut
don't want snow
lights on a house or tree
who needs mistletoe
i rather be with you
who needs mistletoe
i rather be with you
don't want eggnut
don't want snow
lights on a house or tree
who needs mistletoe
i rather be with you
who needs mistletoe
i rather be with you
