

# Cold

[\*\*Joe Bonamassa, Black Country Communion, Derek Sher\*\*](#)

I can still remember  
When we were first together  
Every time you held my hand  
It felt just like forever  
It feels like it's not the same  
Is it me or has the weather changed?  
    Say what you got to say  
    Something's going wrong  
    It's getting cold in here, baby  
And I don't know what's going on  
    But I feel the love is gone  
    It's getting cold in here, baby  
And I don't know what went wrong  
    But I think you're letting go  
    Used to be into me  
    Now you're like, whatever  
    All my friends can't believe  
    That we're still together  
    It feels like something strange  
Is it you or has the weather changed  
    Say what you got to say  
    I'm not here to place the blame  
    It's getting cold in here, baby  
And I don't know what's going on  
    But I feel the love is gone  
  
    It's getting cold in here, baby  
And I don't know what went wrong  
    But I think you're letting go  
    But I think you're letting go  
    Colder than it used to be  
And everything is a little bit hard  
    Frozen just like you and me  
    It's getting cold in here, baby  
And I don't know what's going on  
    But I feel our love is gone  
You should know, you should know  
    It's getting cold in here, baby  
    And I feel a chill coming on

And I think your love is gone  
It's getting cold in here, baby  
And I don't know what went wrong  
    But I think you're letting go  
    (It's getting cold in here, baby)  
    Yeah, I think you're letting go  
    (It's getting cold in here, baby)  
    How could you be so cold  
(It's getting cold in here, baby )  
I don't know what went wrong  
    But I think you're letting go
