Like Magic

JRDN

your love is like magic magic magic
your love is like magic magic magicthe sky never been so blue
the grass never looked so green and i
i wanna give my all to you
cause i never felt this feeling in my lifegot me going shorty your so bad
my money never went so fast
can't front your the best i ever had
it was undiscovered love in you i foundi just gotta have it
i reach out and grab it
your love is like magic
baby (uh uh oh)
your love is like magic
baby (uh uh oh)
can't even imagine
you were miles away
somewhere in outer space
and just to see your face
i'd have to find a way
baby (uh uh oh)
no this isn't average
baby (uh uh oh)
your love is like magic magic magic
yea yea yea
your love is like magic magic magic (baby uh uh oh)
yea yea yea
your love is like magic magic magic (baby uh uh oh)the airs never been so clear
the months used to feel like years
but that changes every time your near
it's like i'm starting over everyday
something sexy bout the way you smile
it pulls me in and i just don't know how
i'm hypnotized i'm under your spell
baby i'm not going anywherei just gotta have it
i reach out and grab it
your love is like magic
baby (uh uh oh)
your love is like magic
baby (uh uh oh)
can't even imagine

you were miles away
somewhere in outer space
and just to see your face
i'd have to find a way
baby (uh uh oh)
no this isn't average
baby (uh uh oh)
your love is like magic magic magic
yea yea yea
your love is like magic magic magic (baby uh uh oh)
yea yea yea
your love is like magic magic magic (baby uh uh oh)i know it's hard to believe it until the first touch
we magicians know how to make you all believe in us
when you believe in us
there ain't no stopping us
cause it's your love you know i just can't get enough oooh oohi just gotta have it
i reach out and grab it
your love is like magic
baby (uh uh oh)
your love is like magic
baby (uh uh oh)
can't even imagine
you were miles away
somewhere in outer space
and just to see your face
i'd have to find a way
baby (uh uh oh)
no this isn't average
baby (uh uh oh)
your love is like magic magic magic
yea yea yea
your love is like magic magic magic (baby uh uh oh)
yea yea yea
your love is like magic magic magic (baby uh uh oh)
