

Shut Up

U.P.O.

Shut up where are you goin'?
Don't you know I'm talkin' to you?
I said, "Sit down, pay attention
All right then, go to your room"Hey now, don't you listen?
How many times have I got to, got to tell you?
You know I could have been something
If I didn't have youYou showed off, you showed off
You showed off, you showed off
Shut up, get out of my way and get out of here
Shut up, get out of my way and get out of hereGet up, can't you do anything?
Don't you know you'll be late for school?
Come on, gather your things now
Try not to make me look like a fool, well
Hurry, I'm tired of waiting
Just wait till your father gets homeYou showed off, you showed off
You showed off, you showed off
Shut up, get out of my way and get out of here
Shut up, get out of my way, you don't know nothin' at all
Shut up, get out of my way and get out of here
Shut up, shut up, get out of my way and get out of hereAll you do is slow me down
Shut up, get out of my way and get out of here
Shut up, get out of my way, you don't know nothin' at all
Shut up, get out of my way and get out of here
Shut up, shut up, get out of my way and get out of hereYou showed off, you showed off
You showed off, you showed off
