

# Global Probing

## Descendents

It takes a long time to get what you want  
No matter how hard you try , it just won't come  
But you keep on tryin', and you don't give up  
and it's really silly, and it's all in vain  
and if you don't stop you're going to go insane  
cause it takes a long time to get what you want  
no matter how hard you try, it just won't come  
But you keep on tryin', and you don't give up  
and it's really silly, and it's all in vain, and  
You could be doing other things  
You could be doing what you want, but you  
keep on tryin' and you don't give up  
and it's really silly, and it's  
all in vain and if you don't stop  
you're going to go insane  
It's all in vain and if you don't stop  
you're going to go insane  
Insane! Insane! Insane! Insane!  
It's all in vain, and if you don't stop  
you're going to go insaneknew you would  
She don't need no one  
And she don't need me
