

Loving You (feat. Kees Dieffenthaller)

Tessanne Chin

Yeah yeah, (ooh) ooh, my lady, my love (my love). Loving you (yeah), every moment, every day of my life,
You know I'll be loving you, oh (oh)
Loving you, 'cause the way that we feel is so right,
You know I'll be loving you, ooh yeah. I can't help it no, don't know if I should laugh
Or I should cry, yeah, because you loved me like no other
But you hurt me deep inside, I know, you are, the one for me,
'Cause your my baby and I'm your lady, come over here let me show you,
I can't let you go and babe you should know, no matter anytime anywhere I'll be. Loving you, every moment,
every day of my life,
You know I'll be loving you, ohh (oh)
Loving you, 'cause the way that we feel is so right,
You know I'll be loving you, anything you want You're everything I dreamed of come to life, my one and only,
Without you I'd go crazy, yeah, want you to have my babies,
And even if we argue fuss and fight and we're losing our way,
Remember baby, you're everything to me. So I won't let you go, I thought you should know,
Anytime anywhere I'll still be,
Loving you, every moment, every day of my life,
You know I'll be loving you, ohh (oh)
Loving you, 'cause the way that we feel is so right,
You know I'll be loving you, anything you want (babe) I gotta chain, anything you need you know seh mi lock it,
I love you like my favorite game your love turn a rocket,
I just wanna please you, I know that I'll reach you when
