

Time After Time

[Novaspace](#)

Lying in my bed
I hear the clock ticking and think of you
Caught up in circles
Confusion is nothing newFlash back, warm nights
Almost left behind
Suitcase of memories
Time after some times you pictured meIm walking too far ahead, youre calling to me
I cant hear what youve said
Then you said, go slow, I fall behind
The second hand unwindsIf youre lost you can look
And you will find me, time after time
If you fall I will catch you
Ill be waiting, time after timeIf youre lost you can look
And you will find me, time after time
If you fall I will catch you
Ill be waiting, time after timeIf youre lost you can look
And you will find me, time after time
If you fall I will catch you
Ill be waiting, time after timeSecrets stolen from deep inside
The drum beats out of timeIf youre lost you can look
And you will find me, time after time
If you fall I will catch you
Ill be waiting, time after timeIf youre lost you can look
And you will find me, time after time
If you fall I will catch you
Ill be waiting, time after timeTime after time
