

Healing Touch

[Saraya](#)

I'm just trying to make a living
I'm just trying to feel like I'm alive again
To forgive is to forget
And I'm not so sure I can forget about him
Don't need a main attraction
Don't need a night out on the town
Just a physical reaction
Just some tender words to turn my head around
No! Not left to my own care
Not dropped in the middle of nowhere. oh!
I need a healing touch
Recover from the one I used to love so much
I need a healing touch
Recover from the one I used to love
I'm just trying to keep it going
Let the days turn to weeks turn to years
I'm just trying not to show him
How my heart turned to stone turned to tears
No! Not left to my own care
Not dropped in the middle of nowhere. oh!
I need a healing touch
Recover from the one I used to love so much
I need a healing touch
Recover from the one I used to love
I need a healing touch
Recover from the one I used to love
(Guitar Solo)
I need a healing touch
Recover from the one I used to love so much
I need a healing touch
Recover from the one I used to love
