

# She's Back On Crack

## The Mint Chicks

I know a girl  
She's looks so good  
She follows me 'round  
Around the neighbourhood  
Around the neighbourhood  
My neighbourhood

And she's got monkey  
It's on her back  
It's running circles  
On her back  
On her back  
She's back on crack

She's somehow convinced her mind  
To make herself believe she's flying  
She's somehow convinced herself  
That starving herself is good for her health  
If we decide to be together forever  
Stay under the weather
