

# Milk & Honey

## Twin Sister

I think it's time I bought you a suit  
The jacket fits right, the lining is wool  
I do try to look good for you  
If you love me you would try tooSave your money, spend it slowly  
Don't keep waiting for things to change  
Stay on with me, Milk & Honey  
Follow you into our old ageWhy can't you be what I want you to be?  
You've got nothing going  
Will you ever throw in?  
Is it ever going to be easy going?(repeat twice)If you love me you would try too (x6)
