

What Kind Of Love (feat. Amanda Somerville)

Avantasia

A dream of a dwelling inside
Alone we come and alone we go
And who am I to know what I feel
Sympathy that's tearing me apart
Attraction of the distance to a heart or affinity
What if love will leave your heart an open sore
And I can't reveal what even I don't know
The love you feel you waste away on me
What kind of love would let us bleed away
No kind of love would make us bleed away
If only you could be
The one to take a look inside
I feel so incomplete
A broken man in need of mother love
I'm suffering in silence
And no one wants to see
And only god is watching as I bleed
The star above - my matching piece
Oh this will leave your heart an open sore
And I can't reveal what even I don't know
The love you feel you waste away on me
What kind of love would let us bleed away
No kind of love would make us bleed away
