

# Special

## Avant

If I could take away all the pain you ever been through  
I'm hoping that I would be the one you would wanna run to  
'Cause there is no doubt in my mind that you're the one for me  
Now I got to get the whole world to see  
How much it means to me We didn't get married (but it feels so special, yes it feels so special)  
This ain't a baby (but it feels so special, yes it feels so special)  
Been here through night and eve (but it feels so special, yes it feels so special)  
That's what you mean to me ('cause you are so special, yes you are so special) You're like a diamond in a cave  
that's never been seen (never been seen)  
And you're the most beautiful place I go to when I dream (when I dream)  
And if the world turned on you I would be there to pull you through  
'Cause can't nobody ever take your place, yeah We didn't get married (but it feels so special, yes it feels so special)  
This ain't a baby (but it feels so special, yes it feels so special)  
Been here through night and eve (but it feels so special, yes it feels so special)  
That's what you mean to me ('cause you are so special, yes you are so special) You're all to me, the perfect sea  
and I can't be without your love  
Girl, you take me there now, I can reach the stars  
There's no doubt about it you got my heart now and I'm all yours  
And I'm ready to be all that you asked for We didn't get married (but it feels so special, yes it feels so special)  
This ain't a baby, ooh (but it feels so special, yes it feels so special)  
Been here through night and eve (but it feels so special, yes it feels so special)  
That's what you mean to me ('cause you are so special, yes you are so special)
