Pull My Strings

Damien Starkey

How am I ever gonna get out
How am I ever gonna break free
Livin in a shadow of doubt
You keep me here paralyze me
Afraid to end up alone
When I'm with you I'm still empty
I'm drownin like a fool
Dying like I'm guilty
Every move I make every step I take not mine
So go ahead and pull my strings
And just make me see
Everything you want that I can't be can't reach when ive lost myself and ive tied my rope will you cut the cord and let me go let me go
How can I stop living this life how can I quit feeling so empty inside I'm just falling apart
When I hear your voice it kills me afraid to chase after you if I could only erase my memory
I'd run away from here and never feel your misery
every move I make every step I take not mine
So go ahead and pull my strings and just make me see everything you want that I can't be can't reach
When ive lost myself and I've tied my rope will you cut the cord and let me go let me go so go ahead and pull my strings and just make me see
Everything you want that I can't be can't reach when ive lost myself
