A Few Years Later

Project Pitchfork

A Few Years LaterHey, human child
Take a little time for me
I want to show you something
Don't be afraid
Open the gate
Don't be afraidTake a look into my world
Take a look inside
Take a look into my world
My world is green, blue, red and white
(2x)Breathe the sweet air
Smell perfume
Look at the fairies
Don't close your eyes
Enjoy the peace
Enjoy the peaceTake a look into my world
Take a look inside
Take a look into my world
My world is green, blue, red and white
(2x)They're chasing away my chosen ones
With poison from their fieldsThere are places in my empire
Black, grey, foggy, foul
Which I call hell
And you call home
(2x)Take a look into my world
Take a look inside
Take a look into my world
My world is green, blue, red and white
(2x)Hear the machines
They're moving faster
Hear the machines
They're moving faster
Even here you can feel the tremor
Even here you can feel the tremorMy world is dying
My world is dying
My world is dying...
