

Open Your Love Boy

Toni Redd

Everytime I think about you, I just really want you to be with me
Not a day that will go by, I don't think about you loving me
All I really wanna do is hold you in my arms
making you believe I'm what you need

Chorus: Open your love boy, open your love boy
I want your touch boy, open your love boy

Everyday I wish I knew all the things I have in store for you
Cause you don't have to think about it, giving time I'll show you what I'll do
Cause the only thing I want is for you to be mine, give you everything you
want to please you

Chorus: Open your love boy, open your love boy
I want your touch boy, open your love boy

Bridge: Give it a chance, our love is gonna explode
A lover's dance will take control, want you

Chorus: Open your love boy, open your love boy
I want your touch boy, open your love boy

Chorus out..
