

Fly Me Away

Little & Ashley

Silver moons and paper dreams
Faded maps and shiny things
You're my favorite one man show
A million different ways to go Will you fly me away?
Take me away with you, my love Painted scenes I'm up all night
Slaying monsters, flying kites
Speak to me in foreign tongues
And share your secrets one by one
Will you fly me away?
Take me away with you, my love Can hardly think what life was like
Before I had you by my side
Can't say what I'd do without you
Knowing what it's like to have you
Hidden walkways back in time
Endless stories, lover's crimes
In my mind I've been set free
We'll take this journey, you and me Will you fly me away?
Take me away with you, my love
