

Return Of A Queen

Dawn Richard

[VERSE 1] I done lost my crown a long long long time ago
I shouldn't let it go
I'm searching, tryna find my my my way back
Way back to the throne
And I know if I could climb through, can't break these walls
Then maybe I'll get home
I'm taking back what's mine mine, no more will I
Be pushed to the floor
[CHORUS] You do what you want to me
I gave all that I can be
But still you took more from me
Get all the facts from me
I saw it was blasphemy
I knew there was more to me
Reclaim my royalty
It's the return of a queen

[VERSE 2] Baby, it's a shame shame that my kingdom
Has come to this oh oh oh listen
I didn't want the war, bombs, guns, take to destroy
Where my heart exists
Showed us the bridge fall fall down now and
Close with every edge
Pushing through the cloud now I make my vow
Love will always win
[CHORUS] You do what you want to me
I gave all that I can be
But still you took more from me
Get all the facts from me
I saw it was blasphemy
I knew there was more to me
Reclaim my royalty
It's the return of a queen
