

Goodbye

Alexia

Goodbye
Enough is enough for me baby
You better get out of my life
And if you come back to me maybe
Remember I told you goodbye I've never been so sad in all my life
No-one killed me before
Tell me why did you do that?
Oh, don't tell me everything will be alright
Baby this is the door
It's too late to be sorry Oh baby I need a passion in my life (in my, in my passion)
A very special kind of love (special kind of love)
Don't care about you Goodbye
Enough is enough for me baby
You better get out of my life
And if you come back to me maybe
Remember I told you goodbye There's nothing you can do to change my mind
'Cause you've played with my love
It's so hard to forget it Oh baby I need a passion in my life (in my, in my passion)
A very special kind of love (special kind of love)
Don't care about you Goodbye
Enough is enough for me baby
You better get out of my life
And if you come back to me maybe
Remember I told you goodbye
I'll never forgive you Goodbye
Enough is enough for me baby
You better get out of my life
And if you come back to me maybe
Remember I told you Goodbye
(Enough is enough for me baby) Enough is enough for me baby
(Remember I told you goodbye) You better get out of my life
(Enough is enough for me baby) And if you come back to me maybe
(Remember I told you goodbye) Remember I told you
Goodbye
