Quittin' Time

Big Maybelle

Hey baby, tell me what we're gonna do
It's getting crazy and I need some help from you
We were so connected that you were a part of me
Now I feel an emptiness right to the heart of meBut you pretend and I pretend
That everything is fine
And though we should be at an end
It's so hard admittin' when it's quittin' timeHey baby, I'm running out of things to say
Please don't hate me this feeling just won't go away
Now we're spending all our time caught in a fantasy
Just trying to keep in mind the way it used to beBut you pretend and I pretend
That everything is fine
And though we should be at an end
It's so hard admittin' when it's quittin' timeHey baby, I'm running out of things to say
Please don't hate me this feeling just won't go away
Now we're spending all our time caught in a fantasy
Just trying to keep in mind the way it used to beBut you pretend and I pretend
That everything is fine
And though we should be at an end
It's so hard admittin' when it's quittin' timeBut you pretend and I pretend
That everything is fine
And though we should be at an end
It's so hard admittin' when it's quittin' time
So hard admittin' when it's quittin' time
So hard admittin' when it's quittin' time
