

# Cold Water

## Reindeer Section

I feel faint, what have I just heard?

I feel dead from the neck up

Could you pour some water on my face?

It feels cold, at least I'll feel something else  
I am not ready, I am not ready  
It's hard enough to believe you've left  
us

But no goodbyes and no signs that you hurt

I could cry like you should of years ago

So I'll see you when I, I'm ready to go  
I am not ready, I am not ready

I am not ready, I am not ready
