A Day in the Death

Testament

Reanimate!
Opinions of the masses
Revolutions calling
Wreaking havoc in the streets
Aggravated aggression
Is sold for all our own freedoms
Occupy the system
And release the grip on usMilitary forces
Are called in for reinforcements
Blue and gold failures
Denied to keep control and order
Not another hostage
Will be taken under
March to defy!
Stand up and be counted...All the innocent and free
All those who can see
My back is against the wall
Freedom for nothing, freedom for speech
Freedom to believe
My back is against the wall
All of the hypocrisy
Damn your government
My back is against the wall
All of the corruption now
It doesn't make any sense
My back is against the wallA day in the death
A broken creed
Your so called life in which we lead
Forgotten dreams left behind
Is all I'll find
Just a day in the death
A day in the death
A day in the death of mankindSomething inside of me says
The balance of life is at hand
Thousands of protesting mothers
Come here to rally in hordes
Together, forever
Together, for ever and ever
Just a day in the death of mankind!Reanimate!

Opinions of the masses
Revolutions calling
Wreaking havoc in the streets
Aggravated aggression
Is sold for all our own freedoms
Occupy the system
And release the grip on usAll the innocent and free
All those who can see
My back is against the wall
Freedom for nothing, freedom for speech
Freedom to believe
My back is against the wall
All of the hypocrisy
Damn your government
My back is against the wall
All of the corruption now
It doesn't make any sense
My back is against the wallA day in the death
A broken creed
Your so called life in which we lead
Forgotten dreams left behind
Is all I'll find
Just a day in the death
A day in the death
A day in the death of mankind
