

Wembley

The Candy Skins

here's a song from me to you
i hope you understand me
i can't forget that day we met
i loved you oh so madly
and all the things i used to do
i gave them up so gladly

well, yes i love you
well, i think i love you
well, let's just say
there's something in your smile

do you remember getting drunk
on uncle Derrick's brandy
we were sick and we were young
i wanted you so badly

well, yes i love you
well, i think i love you
well, let's just say
there's something in your smile

well, yes i want you
well, i think i want you
well, let's just say
there's something in your smile

tell me why you spoke to him
you shouldn't be so friendly
my violent temper strikes again
i need you to defend me

it's 1966 again
a love as big as wembley
wembley
tell me

well, yes i love you
and i'll always love you
well let's just say

there's something in your smile

something in your smile

something in your smile
