

# Joystick

Simon Curtis

I can't count all the times that I had to say I'm sorry  
For wanting something with a few more bits than my Atari  
    Don't play a game, boy  
    They said it would get old  
But sometimes boys like me are curious  
    And can't be told no  
You came along and had me saying  
    "What is this?"  
Your sexiness had got me ready for the GenesisBaby, grab a hold of the joystick  
    Take control of the motion  
    I can feel it when you ha-ha  
Baby, you make all of the choices  
    Other players can join us  
If you're feeling like you wanna play gamesIf you wanna play games [x7]  
    If you wanna playThen I upgraded to Nintendo 64  
    And your first time with a joystick  
Left you feeling like a who-ho-ho-ho  
    Hyper gamer, nothing greater  
    We can play all night  
    You'd better be some competition  
'Cause I want a fightBaby, grab a hold of the joystick  
    Take control of the motion  
    I can feel it when you ha-ha  
Baby, you make all of the choices  
    Other players can join us  
If you're feeling like you wanna play gamesIf you wanna play games [x7]  
    If you wanna playI don't want you thinking  
    That I'm trying to apply pressure  
    But the pressure makes it better  
    Pushing harder makes it wetter  
    If you wanna skip a level  
    Then we'll go to level two  
Just beat my boss and get me off  
    And then I'll play with you  
    You, you, me  
Okay, just plug the damn thing in alreadyIf you wanna play games [x7]  
    If you wanna playBaby, grab a hold of the joystick  
    Take control of the motion  
    I can feel it when you ha-ha

Baby, you make all of the choices  
Other players can join us  
If you're feeling like you wanna play games If you wanna play games [x7]  
If you wanna play
