Let It Roll

Emerson Drive

It all started from nothin'
Just a couple friends and Dad's guitar
Learnin' songs in the basement
The Dirt Band and Restless Heart

I can't say it's been that easy
And I can't say it's been that hard
A million miles out the window
And feels like we've yet to start

Let it roll, let it roll
Just keep on goin'
The road we leave behind
Let it roll, let roll
Just keep on dreamin'
Of what we're out to find
Let it roll, let it roll
Just keep believin'
This is not goodbye
We'll keep you on our minds
As we're rollin' out tonight

As we're rollin' out tonight

Seven nights in smokey bar rooms
Three hundred days away from home
But everything changes with a hit song
Still makin' fans coast to coast

Let it roll, let it roll
Just keep on goin'
The road we leave behind
Let it roll, let roll
Just keep on dreamin'
Of what we're out to find
Let it roll, let it roll
Just keep believin'
This is not goodbye
We'll keep you on our minds

As we're rollin' out tonight

Let it roll, let it roll
Just keep on goin'
The road we leave behind
Let it roll, let roll
Just keep on dreamin'
Of what we're out to find
Let it roll, let it roll
Just keep believin'
That this is not goodbye
We'll keep you on our minds
As we're rollin' out tonight

As we're rollin' out tonight
Let it roll, let it roll, let it roll, let it roll
Oh, just keep believin'
As we're rollin' out tonight
