

# Lights

## The Summer Set

Just keep me close tonight  
Under the covers  
She said let's make this right  
'Cause we're all we'll ever need  
And we got time  
So keep the lights down low  
Oh oh, you know, you do this to me  
So speak up if you feel the way I feel  
We never love like this  
Don't hurry just slow it down now  
We got time to make our move  
Don't hurry just slow it down now  
Step back, oh, it's time we're wasting  
(Oh oh)  
You know, the cold night air  
It's not the only thing making me shake  
We could be anywhere  
From L.A. lights to Arizona skies  
'Cause we're all we'll ever need  
The two of us on on the silver screen  
Stay close, don't forget it, don't forget it  
You've got me  
So keep the lights down low  
Oh oh, you know, you do this to me  
So speak up if you feel the way I feel  
We never loved like this  
Don't hurry just slow it down now  
We got time to make our move  
Don't hurry just slow it down now  
Step back, oh, it's time we're wasting  
So keep the lights down low  
Cause this is all we'll ever need  
So keep the lights down low, oh oh  
Don't hurry just slow it down now  
We got time to make our move  
Don't hurry just slow it down now  
Step back, oh, it's time we're wasting  
Don't hurry just slow it down now  
We got time to make our move

Don't hurry just slow it down now  
Step back, oh, it's time we're wasting  
(Oh oh)
