

Lightbulbs

Annasaid

oh my love this time, this time
we've talked and i've told them
 that they've no spines
so no more like this time again
 because we float out of light
 i'm out of it
 all the lightbulbs glow
 all the lightbulbs glow
we don't plan on burning out
we don't plan on burning out
we don't plan on burning out
 if they're spinning around
 they'll get all tangled in

 what we go thru
 so they're spinning around
well at least you're not standing still
 all the lightbulbs glow
 all the lightbulbs glow
maybe if you color yourselves in fire
maybe if you color yourselves in fire
maybe if you color yourselves in fire
color yourselves in yourselves(in fire)
color yourselves in yourselves(in fire)
color yourselves in yourselves(in fire)
