

# Four Minute Warning

## Chaos UK

Lying in bed half asleep  
aftershock in a dream  
40 years into a deadly game it's nuclear war  
just try to be brave  
hide in your shelter  
pray to be saved  
After the blast It won't be the same  
hiroshima is here again  
hiroshima is here again 4 minute warning x3  
Hiroshima was just a start  
for America to act out a part  
nuclear forces give us pain  
while killing us with blackened rain giving us a blackened grave  
it's nuclear war  
try and be brave  
politics are a deadly game  
after the blast we'll all die the same
