

Keep Control (Radio Edit) [feat. Jan Blomqvist]

Animal Trainer

We are walking knights
Taking pills to feel fine
We sit back and sip our wine
Lost our fires about the time. We waist cash on pretty things.
How long lives the king?
Just fill the boat untill it sinks
and behold the kept will. Keep control
Keep control
Keep control
Keep control Keep control
Keep control
Keep control
Keep control Keep control
Keep control
Keep control
Keep control Keep control
Keep control
Keep control
Keep control Keep control
Keep control
Keep control
Keep control We are our superstars
Long commutes, fancy cars
Our shallow words in hollow bars
Truce until we're making wars. For what purpuse has the crown,
The castle its thrown onto the ground
or when you play, your plaine will crash a stone
behold the kept will. Keep control
Keep control
Keep control
Keep control Keep control
Keep control
Keep control
Keep control We can't take control
All we have is fake control
Basically no contol
So fuck control. Fuck control. Keep control
Keep control

Keep control
Keep controlKeep control
Keep control
Keep control
Keep control
