

# Pearls On a Plate

## Pretty Girls Make Graves

What's to tell you  
When normal comes naturally? Fleshy webbing  
Rots separate, yet so alive  
They found holes inside  
We've got holes inside Sights so awful  
They stole the color from your hair  
They found holes inside Grubs in muscle  
It sends a chill right up my spine  
They found holes inside  
They found holes inside
